

2024 HAWAII CYBER FORENSICS FIVE-O COMPETITION

The Pacific Technology Cooperation Group's (PTCG) annual Cyberforensics 5-0 is a transformative experience that throws high school students across Hawaii and the Pacific into the heart of a simulated cybercrime scene. This prestigious event culminates a year of focused studies, intense training, and competitive spirit, testing their mettle against real-world scenarios designed to replicate complex cyber investigations. Time is of the essence as they race against the clock to secure vulnerable systems and prevent further damage. The ultimate goal? To claim the coveted title of Pacific's top cyberforensics champion.

March 4 & 5, 2024

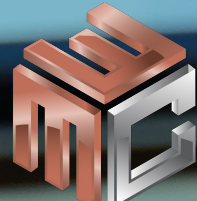

Monday - 8:00 am - 4:30 pm

Tuesday - 8:00am - 2:00pm

2024 Pacific Operational Science & Technology Conference
